Twin Lakes Owners' Association Architectural Rules and Regulations
(Last updated: 5/14/19)

A: FINES

As of August 2017 all rules and regulations listed under this committee shall carry a fine when violated as defined by the nature of the violation.

B: BUILDING REQUIREMENTS FOR ALL LOTS AND NEW CONSTRUCTION

1. In the event construction is not started within six (6) months following approval of plans and specifications, such approval shall become null and void thereafter. If construction cannot be started within six (6) months a request for an extension of time shall be submitted to the Committee for consideration.
2. The exterior of all buildings or other structures must be completed within SIX (6) months after construction has started, except where such completion is impossible or would result in great hardship to the owner or builder due to strikes, fires, national emergencies or natural calamities. If not so completed, the unfinished structure, or any uncompleted portion of a structure may be deemed a nuisance and forthwith may be removed by the Association at the cost of the owner, and the exterior completed at the owner's expense.
3. No grading, excavation, clearing, fence, wall, building, or other structure or improvement and/or alteration to an existing structure shall be started, erected, or maintained, temporarily or permanently, without prior written approval of the Committee. In effect, the natural environment of any lot may not be disturbed in any manner until plans for its use have been reviewed and approved by the Committee.

12. The minimum square footage requirement as outlined in the Covenants, restrictions, and Reservations with respect to individual units shall be interpreted to mean 1200 square feet of finished living area. While 1200 square feet of living space is a building requirement perhaps it would be desirable to exclude basement space in this unless the house is of a split-foyer/split-level type design. Exceptions to the square foot requirement may only be made by the Committee.
13. The preferred method of construction is stick built on site. Specifically prohibited under this paragraph are mobile homes, double-wide mobile homes, and modular homes. As an exception, the Committee may consider modular homes provided all other requirements of the Rules and Regulations have been fully met and the proposed structure has special architectural merit of design and appearance.

E. SETBACK LINES

1. Setback lines established by the local jurisdiction are twenty(20) feet from the right-of-way line of any roadway or fifteen(15) feet from any rear or side lot. Location of structures within the setback lines shall be within the sole determination of the Committee. Commonly owned adjoining lots where the main structure is constructed across the common property line, prohibiting the construction of an additional main structure shall be granted a waiver of the setback requirements for that portion of the common lots only. All other setback lines shall apply.

All external structures require Committee approval. Homeowners are required to submit proper architectural approval forms to include dimensions, location, materials and color of proposed structure. Guidelines for external structure approval include:

- (a) Structures must be located so as to minimize their impact on neighboring properties, roadways, and common areas. Wherever possible, attached built-in sheds and garages should be integrated into the design and architectural aesthetics of the house, walls, or fencing.
- (b) Structures Whenever possible, structures shall be located in the rear of the yard.
- (c) Structure color must closely match the exterior color of the residence, or complement the existing structures and/or environment in the choice of color. Play houses can optionally remain natural wood color. The Committee retains the right

- (d) Size of structure is generally limited to no larger than 192 square feet.
- (e) Quantity of combined sheds and garages allowed on one lot, is limited to two. Additionally, up to two play house's per lot are permitted. Such entrance for the purpose of mowing, cutting, clearing, or punning shall not be deemed trespass. The Association may likewise enter upon such land to remove any trash which is collected on such lot without entrance and removal being deemed trespass. Code Section 55-513, as amended.

3. SANCTIONS FOR VIOLATIONS

In the event that any member, or his family members, tenants, guests, or other invitees, shall violate or fail to comply with these Rules and Regulations, such member shall be liable for the following described charges and subject to the following described suspension of such member's right to use facilities provided that such member shall have been sent prior written notification of the violation as provided in paragraph D below. The amount of any charges so assessed shall not be limited to the expense or damage to the Association caused by the violation, but shall not exceed \$50.00 for a single offense or \$10.00 per day for any offense of a continuing nature and shall be treated as an assessment against the member's lot for the purposes of Va.
